# THE ESSENCE OF MATERIALS

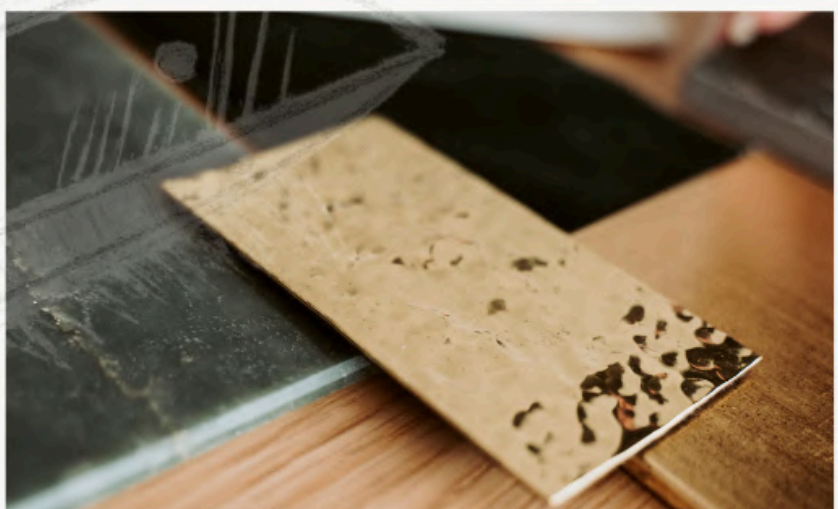

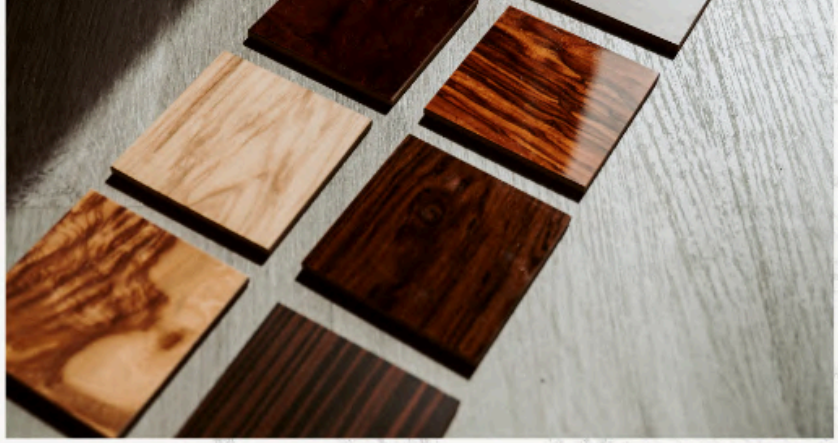

At Patamar, every material is chosen with purpose.

From the nobility of natural woods to the subtle glow of golden metals, each element reflects a perfect balance between strength, texture, and sophistication.

Our pieces come to life through meticulously selected raw materials, including marbles, exotic woods and gold leaf finishes that elevate design into an art form.

More than furniture, we create timeless sculptures designed to transcend generations.

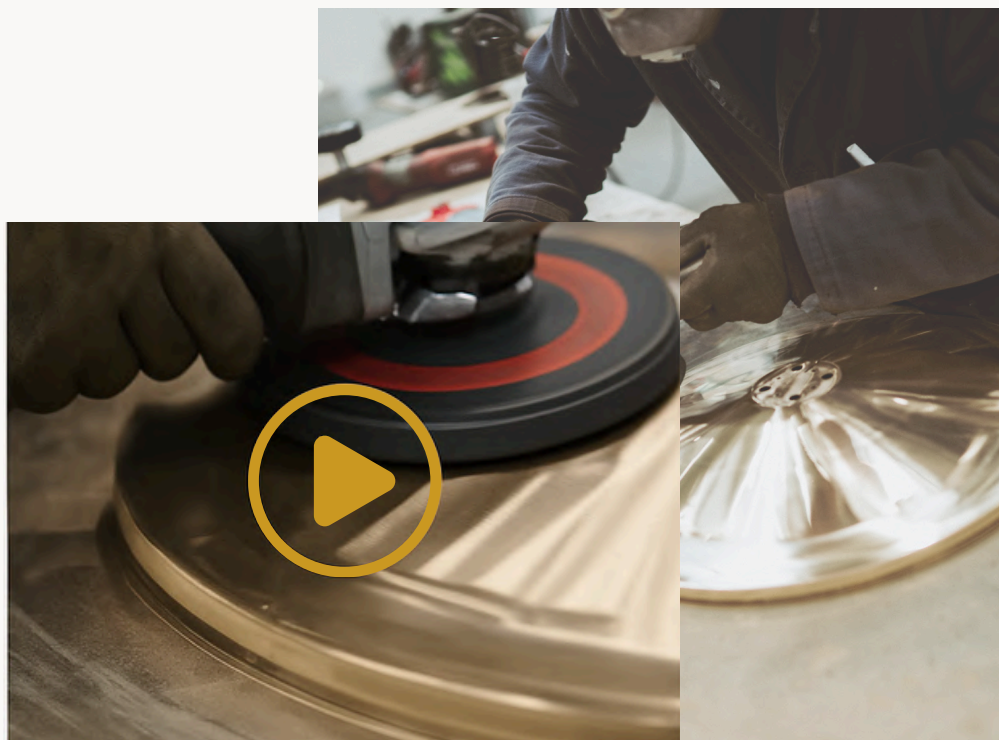

## AT PATAMAR, LUXURY IS NOT MASS-PRODUCED.

Each process reflects precision, patience, and the time devoted to every piece.

# HOW IT IS CRAFTED?

Each piece is handcrafted in Portugal by master artisans who blend traditional savoir-faire with contemporary design.

## WOOD & FINISHES

We select noble woods and apply handcrafted finishes that highlight the natural beauty of every grain and texture.

From carving to polishing, every piece is treated as a unique work of art, made to last for generations.

## POLISHED BRASS

The metal is shaped and polished by hand, achieving a mirror-like warmth through a process that demands both skill and sensitivity. The result is a luminous finish that enhances the contours of each design.

## MARBLES

Every marble block is carefully chosen for its color, pattern, and depth.

The stones are cut, polished, and fitted with meticulous precision, revealing surfaces that embody elegance and sophistication.

## GOLD LEAF

Applied by hand in multiple delicate layers, the gold leaf creates subtle reflections that bring warmth and distinction to every surface.

## LEATHER & FABRICS

Each fabric and leather is selected for its texture, strength, and touch.

The upholstery process is entirely handcrafted, ensuring comfort, elegance, and an impeccable aesthetic in every detail.
